
TABLE OF CONTENTS

SIGIR NEWS

- From the Chair...** 1
Jamie Callan

ICDM INVITED PAPER

- Open source search: a data mining platform** 4
Wray Buntine

TREC REPORTS

- The TREC robust retrieval track** 11
Ellen M. Voorhees
Report on the TREC 2004 genomics track 21
William R. Hersh
The TREC tetrabyte retrieval track 25
Charles Clark, Nick Craswell and Ian Soboroff

CIKM WORKSHOP REPORTS

- The second ACM international workshop on multimedia databases (MMDB 2004)** 26
Shu-Ching Chen and Mei-Ling Shyu
Report on the 6th ACM international workshop on web information and data management (WIDM 2004) 31
Alberto H. F. Laender and Dongwon Lee

WORKSHOP AND CONFERENCE REPORTS

- Workshop on the evaluation of multimedia retrieval** 34
Thijs Westerveld, Arjen P. de Vries and Franciska M. G. de Jong
Report on the 27th European conference on information retrieval research (ECIR 2005) 37
David E. Losada and Juan M. Fernández-Luna

INEX REPORTS

- Relevance feedback at the INEX 2004 workshop** 41
Carolyn Crouch
Report on the INEX 2004 interactive track 43
Anastios Tombros, Saadia Malik and Birger Larsen
The NLP task at INEX 2004 50
Shlomo Geva and Tony Sahama

DOCTORAL ABSTRACTS

- Video information retrieval using objects and ostensive relevance feedback** 54
Paul Browne, Dublin City University
Effective web crawling 55
Carlos Castillo, Center for Web Research, University of Chile
Searching and mining the web for personalized and specialized information 57
Michael Chau, The University of Hong Kong
Polyphonic music retrieval: the n-gram approach 58
Shyamala Doraisamy, Imperial College London

DOCTORAL ABSTRACTS contd.

Two information retrieval learning environments: their design and evaluation	59
Kai Halttunen, University of Tampere	
Variations on language modelling for information retrieval	61
Wessel Kraaij, TNO TPD	
A relational vector-space model of information retrieval adapted to images	62
Jean Martinet, CLIPS-IMAG, Grenoble	
Verification of bibliometric methods' applicability for thesaurus construction	63
Jesper Schneider, Royal School of Library and Information Science	
Automatic summarization focusing on document genre and text structure	65
Yohei Seki, National Institute of Informatics	
Automated word sense disambiguation for web information retrieval	68
Christopher M. Stokoe, University of Sunderland	
Using generative probabilistic models for multimedia retrieval	69
Thijs Westerveld, CWI/INS1	
Implicit feedback for interactive information retrieval	70
Ryen W. White, University of Glasgow	
Aggregated feature video retrieval for MPEG-7 via clustering	71
Jiamin Ye, Dublin City University
